

Quick, Easy Spanish for Workplace Communication

Workplace Spanish® for Hospitals & Nurses

Designed for nurses, doctors, technicians, therapists and administrative staff in hospitals and major medical practices.

The objective of this program is to help English-speaking health professionals communicate with Hispanic patients, and their families, in a wide variety of clinical situations to assess illness & injury, provide treatment & therapy and communicate discharge orders.

The **82-page** learning manual, MP3 audio CD and Click It® CD-ROM contain over **1,200** health care and conversational terms and expressions organized into topics and practice conversations.

Key topics include:

- Spanish & phonetic pronunciation
- Greeting patients & asking basic questions
- Obtaining and explaining medical information
- Triage and patient treatment communication
- Symptoms, illnesses, injuries, procedures
- Lab tests, pre & post-op, physical therapy

About Workplace Spanish®
